## ABOUT WATER Fillico Jewelry Water Excellence of Ultimate Luxury

### ◆ High Quality Mineral Water Kobe Water, Water of Nunobiki

Many famous celebrities have talked about Nunobiki, Kobe Water. One famous incident is written in the book, "Kaido Wo Yuku". The author of this book is Mr. Ryotaro Shiba, is the one of the best novelist in Japan. "Kaido Wo Yuku" has been used to make TV programs and many of Japanese must know his name and his novels. The following is the lines from his book. "One should drink water row. The water is good to make into sake. The best water for this is the water from Rokko Mountains. In old days, Kobe Water was considered to be the best and special. The pleasure for the sailor who stops at Kobe Port, was when they empty the water tank and refilled it with Kobe Water. They all said that the Kobe Water was the best, which must be very true. Water from Nunobiki goes through the Rokko Mountains Ancient granite rocks and contains moderate amount of mineral, they say that it is the reason for good taste and sailors knew that Kobe Water is the only water which can go down the equator and still remains safe to drink and its taste stay as good as before. Around ten years ago, I heard the story from a friend at the restaurant overlooking the Kobe port filled with ships. I was strongly inspired by the story that this town Kobe is the place where Water is exported to the world."

In Japan, people can drink tap water which is guaranteed to be safe and clean by the Japanese government. However it is now so common for the Japanese people to go look for the best water for their taste, and often people talk about where is the best water source in Japan. There are many books about the "best water" in Japan. One of the most famous book "The 130 best water in Japan" says about Kobe Nunobiki Water as "There is always a long line of people to drink the water. Sailors loved the water as the water which did not go rotten going over the equator."

Fillico Jewelry Water comes from Kobe, Japan. It is a high quality natural mineral water with high graded quality standard with smooth and refreshing taste. Kobe is located almost in the center of Japan, near Osaka. Kobe, to be more specific, the name of the place where we bottle the water is Nunobiki. Only two companies are allowed to use the name "Kobe Water", which has long been famous as a premium water. In Japan, Kobe Water has been used to make Japanese Sake, in the famous sake winery centered city "Nada". The water comes from Rokko Mountains, goes through the Granite for a very long period of time minerals melting into the water, and the water absorbs oxygen from the clean air along its long journey, then becomes soft-water, gentle to all drinkers.

Medical doctor, Dr. Mitsutoshi Tsuruta says in his book "Oxidization was the cause of aging and cancer", that I called at every place in quest of water good for the body. Finally I was introduced to Nunobiki Kobe Water by Mr. Nobuo Kaneko, who was an actor, a director, and also the culinary specialist. He insisted that Nunobiki water is the best water for cooking. People knew from long before, that the Nunobiki Water do not go rotten and this means that it is not oxidized, which perfectly agrees on my studies of oxidization and aging and cancer.

## REASON FOR RECOMMENDATION

### Body requires a good taste.

The taste of the water is what the human body feels and acknowledge as "tasty". When drinking one full of mouth, its tasty and sooth taste will be the pleasure. One can easily tell the difference of its extraordinary taste. The taste and its quality lasts for years. Kobe Water, Water of Nunobiki, is said to be an ideal drinking water.

### Five years preservation/Trust and Safety

The miracle of the water is that the taste and quality does not change under long-term preservation even kept in the room temperature.

### Durability

The best suitable water to keep as an emergency supplies. If you are living at upper stories of the building, it will be so hard to bring up the water when the electricity is off. We recommend do keep the water for the emergency situation.

### ◆ Water selected by many feilds

The water is well recognized in various fields. Well used for cooking and Ikebana. The Kobe International Conference Center is using as authorized water. Annual Suma Dai Chakai uses it for its extraordinary taste. Mr. Nobuo Kaneko, Japanese actor and also known as a cook, said that he wants to live at Nunobiki for the Nunobiki Water. It also permeates the athlete to challenge various fields. Water from Nunobiki which takes pride in its exquisite mineral ingredient to which a balance of a body is adjusted quenches thirst of top-ranking athletes.

JAPANESE TABLE TENNIS ASSOCIATION AUTHORIZED DRINKING WATER.

IKEBANA, JAPANESE FLOWER ARRANGEMENT INTERNATIONAL WORLD CONFERENCE

YOKOZUNA, A SUMO WRESTLER OF THE HIGHEST RANK, HAKUHO

WATER BELOVED BY INAC KOBE  
MANY OF THE STAR PLAYERS OF JAPANESE GIRL'S SUCCOR NATIONAL TEAM BELONGS TO INAC KOBE. WATER IS ALWAYS WITH THE PLAYERS TO QUENCH THEIR THIRST.

## NUTRITION FACTS

### ◆ Silica & Sulfate in the water

Just by drinking, the water will support the beauty and health.

Silica contained in the water helps to keep the skin humidity, growth of bone, hair, and nails, preserves collagen. Sulfate in the water also helps the body metabolism and detoxification. Drinking Kobe Water every day can gain these stuff not even noticing. Best drinking water especially for ladies. Add fruits and herb to make detox water.

### Silica is now the hottest beauty ingredients.

Dr. Hidekazu Aoyama of Akasaka Beauty Clinic says, that Silica is essential to make the body. Silica is also known as silicon. Silica is contained in the human skin to make the tissues strong. However Silica must be taken from outside of the body and it becomes harder to take in as aged. Adults are recommended to take 9mg per day. Taking in Silica by drinking water is the easy way.

### Sulfate is contained in mineral water.

Mineral water in Europe contains it a lot. Sulfate works on the metabolism and detoxification, useful to constipation and hangover. But taking it too much will cause in diarrhea.

What is the best ingredient for detoxification?

The accumulation of chemical substances from air and food causes immunodeficiency and disease. A healthy body can balance itself but when the body is weak it will be hard to maintain the balance. Sulfate helps excretion and discharge and it is crucial to a health.

The evacuation and defecation movement controls 75% of detoxification and urination controls its 20%. Sulfate helps evacuation and defecation movement.
